*Les paroles de cette chanson ne sont pas vraiment en rapport avec l'expression « cinq à sept », quoique c'est à chacun de juger si pratiquer le 5à7 est un jeu insensé ou non !! Le message délivré est surtout écologique.*

### Paroles de la chanson

#### *Life is a Foolish Game*

*Life's a foolish game  
Do you ever feel the same  
Well maybe we could change  
Turn this ship another way*

*Feel it in the darkness  
We're sailing right into those jagged cliffs  
Yea*

*Some say we've always been insane  
Hey life's a foolish game*

*A simple equation  
For an enclosed system  
Natural world gone missin'  
Plus all our CO2 emissions*

*Equals degradation  
Waste and shifts and mass extinctions  
Oh no*

*But maybe we can change  
We sure can't stay the same  
Cuz life's a foolish game*

*life's a foolish game*

*Possible solution  
Rewire our connection  
Maybe less consumption  
Emerging from a mind of isolation*

*Revalue all that we've been given  
God don't work on commission*

*We make up one big breathin' chain  
We're the quite the same*

*Hey life's a foolish game*

*Life's a foolish game  
Do you ever feel the same  
Well maybe we could change  
Turn this ship another way*

*Take less than we've been given  
If we move in that direction*

*We'll find our place in this living chain  
We're the quite the same  
Hey life's a foolish, foolish game*

*Life's a foolish game  
Hey life's a foolish game  
Life's a foolish game*

*Lyrics by Emily Richards*
